

Audubon Water Company Flushing notice

April 2nd through June 26th 2019

Tuesday and Wednesday nights

Audubon water may be flushing its water mains on Tuesday and Wednesday nights during this period. The times of the flushing will be from 10pm to 5am. During flushing customers may experience a reduction in pressure and may notice some water discoloration. Turning on a faucet for a short period of time after an appearance of discolored water should return the water to normal appearance. We recommend that you limit activities during these times. Also water discoloration may indicate improper backflow prevention in the home. If you call the company during this period, Audubon will want to investigate your home for compliance to its Backflow prevention policy.

We apologize for any inconvenience this may cause, but this is a critical tool to maintain the quality of the distribution system. Please take note any persons on Home Dialysis.

If you have any questions about this notice, please call my office from 7am to 4pm. JH Russell
